1. Announcement of the Approval  
of the DCID on COMIREX and  
the Designation of its Chairman

Admiral Taylor opened the meeting by noting that the Chairman would be delayed for a few minutes and that he would like to make an announcement on this subject for Mr. Helms.

The Acting Chairman said that he understood that all Board members had now approved by telephonic concurrence the proposed actions which would approve a DCID establishing a USIB "Committee on Imagery Requirements and Exploitation" and transfer the functions of COMOR relating to SIGINT overhead reconnaissance over denied areas to the SIGINT Committee.

Admiral Taylor, therefore, announced final approval by the Director of Central Intelligence of these actions as of 1 June, so that their effective date will be 30 days hence, during which time the Chairmen of the SIGINT Committee and COMIREX have been directed to arrange for a smooth transition of the functions previously assigned to COMOR. \*

Admiral Taylor also stated that Mr. Helms proposed, in the absence of objections by USIB members, to designate the present Chairman of COMOR, [REDACTED] as the Chairman of the new COMIREX. Admiral Taylor concluded by noting that [REDACTED] would, of course, continue as Chairman of the SIGINT Committee. \*\*

2. Approval of Minutes  
25 May Meeting  
(USIB-M-477)

Approved as circulated.

\*The approved actions, including the new DCID No. 1/13 which supersedes DCID No. 2/7 of 23 April 1965, are being circulated by USIB-D-5.1/8.

\*\*The designation of [REDACTED] as Chairman of COMIREX is being disseminated in USIB-D-46.1/1.

3. Watch Report No. 875

Approved as circulated.

4. Soviet Military Research  
and Development  
(NIE 11-67)

Following a brief discussion the Board approved the subject estimate as amended.

5. Soviet Intentions and Strategy  
in the Mediterranean Basin  
(SNIE 11-6-67)

Mr. Kent opened the discussion by noting that this estimate was requested several months ago by CINCEUR via the JCS and General Carroll. He commented that it was a general type of area estimate, prepared largely in advance of the current Middle Eastern crisis, and was not intended as a direct treatment of the current situation. Mr. Helms questioned whether the estimate should be distributed at this time since the title and date of the paper suggested a treatment different from what was intended and which might suggest that the intelligence community was ignoring the current problem.

General Carroll indicated his general agreement with Mr. Helms' comments, noting particularly that paragraph 50 was out of context with the current situation. With regard to the particular problem raised concerning paragraph 50, the Board discussed and agreed to changes therein and the addition of a new paragraph 50. a., as proposed by Mr. [REDACTED]

The Acting State Member then suggested that the subject paper be issued with an explanatory note and followed next week by a SNIE on Soviet intentions in the current Middle Eastern crisis. The discussion which followed on State's proposal for a new SNIE centered on whether an estimate could be useful and current in a fast breaking situation such as this in view of the constant attention being given this problem by the Watch Committee and the daily current intelligence publications. Mr. Helms suggested, and the Acting State Member agreed, that [REDACTED] should circulate to the USIB principals his proposed terms of reference before a decision is made as to whether a SNIE should be prepared.

USIB-M-478  
1 June 1967

The Chairman also requested that BNE prepare a memorandum to be attached to each copy of the subject estimate placing it in proper context in light of the Board's discussions.

Following further discussion the Board:

a. Approved NIE 11-6-67 as amended subject to the preparation by BNE of a cover memorandum to be attached to each copy of the estimate placing it in proper context in light of the Board's discussion.

b. Noted that a decision on whether or not a SNIE should be prepared on the Middle East crisis will be made after the Acting State Member circulated proposed Terms of Reference for such a SNIE to BNE and the USIB Principals.

No member raised objection to the release of this estimate to USIA.
